

Impound Insights  
July 2009  
By Dan Warner

We all were hoping for better conditions than the last two months. Constant winds on Saturday during tech and high temps both days was just some more of the same. Total entries down to 114, you can mark that to pre-Speedweek jitters. No one wants to run over the crankshaft three weeks before leaving for Utah.

Top speeds of the meet went to the BMR roadster with Alan Fogliadini, Fogie, driving at 220.884 and Nick Nicolaides on his 1350-APS-BF bike ran a 223.087. Dave Davidson and Les Leggitt brought out their new '33 AA/BFR. It is a great looking car and has the stuff to be the first 300 MPH roadster, non-modified class. Dave ran a 190 shakedown pass.

Again, there were no new 200 MPH Club members this meet; hopefully we will see additions to the roster later this year. The lack of new members in the first half of the season shows just how tough it is to get one of those Merlot colored hats.

This is a list of all new records set at El Mirage to date;

### **EL MIRAGE CAR RECORDS**

#### **Blown Fuel Streamliner - /BFS**

XF	Eric Hansson	E. Hansson	06/09	198.308
----	--------------	------------	-------	---------

#### **Blown Gas Lakester - /BGL**
