

Impound Insights
 June 2009
 By Dan Warner

Constant winds were present during tech inspection on Saturday with hopes that with the sunrise the wind would stay down. I was up three or four times Saturday night and the wind was still blowing, usually it will lay down when the sun sets. Sunday had a steady tail wind. I heard plenty of points chasers in impound say that the wind upset their plans for a championship by pushing them faster than expected. There was a low entry turnout, maybe due to a scheduling issue against the Antique Nationals and other events.

There were 10 new car records and 12 bike records. This is a list of all records set to date at the El Mirage:

2009 EL MIRAGE CAR RECORDS

Blown Fuel Streamliner - /BFS

XF Erik Hansson E. Hansson 06/09 198.308

Blown Gas Lakester - /BGL

K Team McLeish Bros. D. McLeish 06/09 133.233

A-BF Noonan/Moreland J. Noonan 06/09 223.726

Omega

APS-Omega

Riches Nelson MDR

K. Riches

06/09

149.117

A track in poor condition, much like May, held the fast speeds down. Willie Freudiger set top time for cars at 210 in his B/FMR. John Noonan ran a 223 on his 1650-ABF 'Busa.

There were no new 200 MPH Club members this meet. A summer storm may help the surface heal somewhat, maybe it will happen when we are at Speedweek in August.
